Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Mezzan Holding Company K.S.C.P ("the Company") and its subsidiaries (together referred to as "the Group") as at 30 September 2025, and the related interim condensed consolidated statements of profit or loss, comprehensive income for the three-month and nine-month periods then ended and the related interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

Report on other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of the accounts of the Company. We further report, nothing has come to our attention that causes us to believe that there is any violations of the Companies Law No. 1 of 2016 and its Executive Regulations, as amended or of the Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended 30 September 2025 that might have had a material effect on the business of the Company or on its financial position.

We further report that, during the course of our review, nothing has come to our attention that causes us to believe that there is any violations of the provisions of Law No 7 of 2010, concerning the Capital Markets Authority and its related regulations, as amended, during the nine-month period ended 30 September 2025 that might have had a material effect on the business of the Company or on its financial position.

19. Fair value measurement

Fair value of financial instruments

Financial instruments comprise of financial assets and financial liabilities. Fair values of all financial instruments are not materially different from their carrying values. For financial assets and financial liabilities that are liquid or having a short-term maturity, it is assumed that the carrying amounts approximate to their fair value.

All aspects of the Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2024.

Determination of fair value and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments:

Level 1: quoted prices in active market for the same instrument;

Level 2: quoted prices in active market for similar instruments or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The following table shows a reconciliation of investment at fair value through other comprehensive income from the opening balances to the closing balances for Level 3 fair values.

	2025	2024
	KD	KD
Balance at 1 January (Audited)	3,039,593	2,334,854
Purchases during the period	-	209,339
Change in fair value	(687,722)	946,703
Balance at 30 September (Unaudited)	<u>2,351,871</u>	<u>3,490,896</u>

Valuation methods and assumption

The Group invests in a private equity company that is not quoted in an active market. Transactions in such investment do not occur on a regular basis. The Group uses a market-based valuation technique for these positions. The Group determines comparable public companies (peers) based on industry, size, leverage and strategy, and calculates an appropriate trading multiple for each comparable company identified. The multiple is calculated by dividing the enterprise value of the comparable company by an earnings measure. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the investee company to measure the fair value. The Group classifies the fair value of these investments as Level 3.

Description of significant unobservable inputs to valuation

	<i>Valuation techniques</i>	<i>Significant unobservable inputs</i>	<i>Rate</i>	<i>Sensitivity of the input to fair value</i>
Unquoted investment securities	Market approach	DLOM *	25%	Increase (decrease) in the discount would decrease (increase) the fair value.
